To whom it may concern,

As President of the Bridge and Tunnel Officers Benevolent Association, I have worked in the past with a vendor, The AccuHealth Group, who has provided health and wellness services to my Members.

AccuHealth has, for the past few years, provided their services – consisting of comprehensive health reviews, complete and thorough physical examinations and diagnostic testing – in a quick, professional and efficient manner.

Their efforts have resulted in the diagnosis or prevention of multiple clinical disorders, some life threatening, which were discovered before any symptoms. The feedback from my Members has been stellar. They all applaud the AccuHealth experience, the thoroughness of the examination and the convenience of having all testing performed at the same visit. I personally recommend AccuHealth for their union-centric attitude and Member-centric services.

Yours sincerely,

Wayne Joseph

President,
Bridge and Tunnel Officers Benevolent Association
